M.Sc. Interactive Digital Media

YMCA University of Science and Technology – Faridabad, India   *Aug 2014 - July 2018*
Bachelor of Technology, Computer Engineering
- Events Coordinator for the Technical Society of YMCA, Manan. Organized 8+ events with 200+ participants.
- Mentored fellow students by conducting knowledge-sharing sessions on various topics like algorithms, software development, and programming languages.
- Spearhead the development of the 2017 fest website, used by over 800 students during our annual fest.

EXPERIENCE

JOSH TECHNOLOGY GROUP – Gurgaon, India

Senior Software Developer - 1   *Oct 2019 – July 2021*

- Led a team of five to deliver enterprise applications overseeing all aspects of software development including analyzing the technical constraints, planning, design and code reviews, making workflow and process improvements, and reporting to the clients.
- Overhauled the existing interview problem set for experienced hires. Interviewed over 15 candidates.
- Design induction and training programs for Go and React that were used to onboard more than 50 new developers. Directly mentored 5 new engineers and 8 interns.

Software Developer   *July 2018 – Sep 2019*

- Designed and developed 2 core features, 10+ enterprise plugins, and created integrations with third-party applications like Confluence and OneDrive for a business communication platform - 'Mattermost'.
- Created CI/CD pipelines and managed infrastructure using AWS and Azure stacks. Automated deployments using Ansible scripts.

Software Development Intern   *Jan 2018 – Jun 2018*

- Worked in a team of 4 to develop **iReflect**: an open-source retrospective and feedback management system, in use internally by over 75 employees.
- Implemented the interview scheduling module and contributed to several other features for the Calyxpod Companies mobile app and published it to the app stores.

PROJECTS

Mattermost Plugin CircleCI   *Nov 2019 - Present*
- Started as a Hackathon project with an aim to enhance the visibility of CI builds. Allows previewing the CircleCI build statuses and triggering new builds and deployments directly from Mattermost.
- Completed in a team of 2, won a $2000 USD bounty from Mattermost staff.
